## ► KASPERSKY SECURITY FOR MAIL SERVER

Keeping corporate mail free from spam and malware

Kaspersky Security for Mail Server provides outstanding protection for traffic running through mail servers from spam, phishing and both generic and advanced malware threats, even in the most complex heterogeneous infrastructures.

Protection against confidential data loss through emails and attachments is also provided for Microsoft Exchange Server Environments.

- Real-time anti-malware protection
- Support for Microsoft® Exchange, including confidential Data Loss Protection.
- Support for Unix MTA including
  - Sendmail
  - Qmail
  - Postfix
  - Exim
  - CommuniGate
- Support for IBM Domino
- Cloud-assisted anti-malware, anti-spam and anti-phishing
- Zero-hour vulnerability protection
- Malicious URL filter
- Backup and reporting
- Flexible rules for email processing
- LDAP support
- Managed through Kaspersky Security Center

### HIGHLIGHTS

#### PROTECTION FROM MALWARE THREATS

Powerful protection from malware is provided by Kaspersky's award-winning anti-malware engine, supported in real time by the cloud-assisted Kaspersky Security Network, together with proactive exploit protection, and malicious URL filtering.

#### ANTI-SPAM PROTECTION

For Microsoft Exchange and Linux-based mail servers, Kaspersky's cloud-assisted anti-spam engine has been proven to block up to 99.96% of time- and resource-wasting spam, with minimal false positives.

#### DATA LOSS PROTECTION AND CONTROL (MICROSOFT EXCHANGE SERVERS)

By identifying the inclusion of business, financial, personal and other sensitive data in outgoing emails and attachments on Microsoft Exchange servers, and controlling the flow of this information, Kaspersky Security for Mail Servers keeps your and your employees' confidential data secure, and in compliance with data protection legislation. Sophisticated analytical techniques, including structured data searches and business-specific glossaries, help identify suspicious emails which can then be blocked. The system can even alert the sender's Line Manager to the potential data security breach.

#### SIMPLE, FLEXIBLE ADMINISTRATION

User-friendly management and reporting tools and flexible scan settings for give you efficient control of your mail and document security, helping to reduce the total cost of ownership.
