This utility is a free replacement for the standard OS X TextEdit. It uses Apple's TextKit framework to provide a full-featured text editor, but it has a clean and simple interface that, combined with the ability to add live recording to your document, make it ideal for rapid and easy document creation. LyricsStudio is a simple lyrics app featuring best-in-class lyrics search. It is also excellent for learning lyrics. Let lyrics speak to you. Add your own lyrics and share with your friends. Choose a playback widget that suits your needs. If you like, share your LyricsStudio creations with the world! TouchYourLyrics is a lyrics search engine, that I developed in last summer of 2010, to be a companion for the IOS Music Player for the lyrics that is included in the Music app. However, more and more people began asking me to be able to put lyrics from all kind of lyrics sources: music sites like Last.fm or HypeMachine, the web or Facebook, and I knew that it was time to make a standalone lyrics player. This new LyricsStudio version of TouchYourLyrics is a stand alone lyrics player for the IOS. It uses iOS 6 technology (hence the name iOSLyrics) to make it easily and seamlessly integrated with the Music app. The Chicago Analog Art Library allows you to conveniently search for and select thousands of artworks. The categories include ALL ARTWORKS, BEVERAGES, BED & BATH, BOOKS, BUSINESS, GALLERY, HOME & DINING, INFOTI and more! With a simple search or by looking through the alphabet, you will be able to find a work that will be perfect for your home decor or office desk, in no time! In addition, you can add a description to your work and save the results of your search! This way you will have the confirmation of what is your dream work or the perfect piece to work at your office! V-OI (Voice-Over Instrument) notation is commonly used by classical musicians and composers to create a notation which resembles what we hear in a piece of music as a voice. How do you play your voice over the instrument? How to play a score has always been a challenge to even the most skilled and experienced musicians. However, the fact is, music is notate using natural human vocal range and a musical instrument has no natural vocal range. How to write music takes courage, but with Voicings, you will never have to worry about explaining your score. Just write it, and Voicings will do the rest for you. Your voice and guitar will be transformed into a natural human voice and instrument. You can play the music as you would normally play along with a guitar and voice, and Voicings handles the multitrack aspects. V-OI is a natural vocal approach to guitar notation. V-OI guitar notation consists of real voice-like notations, which you play the way a real musician would play it on a guitar. Voicings allows you to play guitar with the unique sustain of a voice, and multitrack instruments. What's New in the latest update: 1. What's New in the Voicings?

Voice is a software music notation and multitracking program for guitar. It has a comprehensive guitar library with a comprehensive library of acoustic and electronic guitars, drum kits, organs, basses, pianos, synth, strings, vocals, winds, and many other instruments. The chord chart with bars and slurs is very similar to the one in tablature. With just one finger you can play all chord shapes. You can play rhythmic scales or arpeggios to play a chord. Sometimes guitar players like to sing along while playing. Voice has a powerful vocal component with the ability to import WAV or MP3 audio files. You can record your vocals, edit them in the Digital Audio Workstation, and re-record them with an expression pedal. Voice was developed to be easy to learn and is ideal for guitarists, singers, and music students. Voice is optimized for the playing of guitar music and is ideal for creating and playing guitar music. It is powerful and flexible, yet easy to use.
